### **AUDIO POST PRODUCTION FACILITY**

#### **Twelfth Root**

Located in downtown Ottawa, Twelfth Root is a full service audio production facility for film, video, radio, and the web. The studio features a large comfortable control room, fully equipped with surround monitoring and the latest in digital audio editing equipment. An extensive ProTools HD mixing and editing environment is complemented with a separate Logic Pro 8 music system, allowing one to work simultaneously in both time code and musical based projects.

The studio also features a unique large modular musical synthesizer, as well as one of the only Haken Audio Continuum Fingerboards in Canada. A sophisticated Kyma Digital Audio system with a Capybara digital engine can be used for both musical and sound design effects.

The recording room is can accommodate anything from voice overs to small musical ensembles, as well as video shoots.
